

I demand for all of us to have pop-on caption on all pre-recorded programs instead of usin' a roll-up caption. For instance, BET has a roll-up caption while it is not live like on Access Granted, BET Start, BET Student Center, BET Now and etc. They are usin' a roll- up caption that is way off with timin' I am unable to read accurately while they sing or rap. I need a pop-on caption for precise communication. Please have them to comply with a new law or regulation to use thier traditional pop-on caption. I would like to see the same with other networks too. If it is not possible then please have them to use timed roll-up caption then. Make sure they use 2 lines scroll caption instead of 3 line roll-up caption. By the way is that true we goin' to have 24 hours pop-on caption in the year of 2006. I got that somewhere from Internet and by ear too. Please pass that new bill for pop-on caption to be available. Have them to find a way to make money to take care of that situation. Collect more money from taxes or whatever to make this possible. Please make it to your first priority to make this happen, thanks
